

Thank you to all participants for your great engagement and interest during our recent in-house training session at Fondarex!

It was a pleasure to welcome professionals eager to deepen their knowledge of Vacuum and Jet Cooling Technologies in High Pressure Die Casting. The lively discussions, shared experiences, and good times we had together made this event truly special.

We look forward to continuing these knowledge-sharing opportunities and seeing you again soon!

Interested in joining our next training? Contact us at info@fondarex.com.
