We just had the pleasure of witnessing our **Fondarex SA** vacuum system in action at **Hyundai Motor Company (현대자동차)**, installed on a groundbreaking 9,000-ton die casting machine! This milestone perfectly reflects Fondarex's ongoing commitment to being the trusted supplier of part quality for the world's most ambitious projects.

A heartfelt thank you to Hyundai South Korea for this amazing project and for placing your trust in our technology. We are also grateful for the outstanding partnership with **IDRA GROUP** and the dedicated support of our local representative, KAMCO. Together, we are driving innovation and excellence in high-pressure die casting.

At Fondarex, we are proud to contribute to the future of automotive manufacturing—one high-quality casting at a time.
